

We need your help to demand that Congress oppose the 2023 Restore VA Accountability Act.

This bill attempts to expedite the firing of VA employees and puts the burden of poor leadership on our shoulders – at a time of critical understaffing at the VA.

We've been here before: In 2017, Congress passed the VA Accountability and Whistleblower Protection Act following a scandal that exposed the malfeasance of several VA officials, which resulted in many veterans paying the ultimate price. The law was intended to hold managers accountable and give employees a safe space to blow the whistle. Unfortunately, the law has instead been used by the VA to attack collective bargaining rights and unjustly fire thousands of low-level employees, many of whom are not in direct patient care positions.

Scan the QR code to send a letter to your congressional representatives urging them to protect the job security and workplace rights of existing VA employees and uphold the quality of care our veterans receive and deserve.
